

# The SPEY

## No touch hand dryer

The SPEY 'No touch' wall mounted hand dryer is small in size and manufactured in a stainless steel casing. Infra-red sensors activate automatically only when hands are placed beneath the air outlet which reduces running costs.

- ▶ Quiet
- ▶ Hygienic
- ▶ Economic to run
- ▶ Reliable
- ▶ Convenient
- ▶ Fully automatic and simple to operate
- ▶ Safe to use
- ▶ Compact

The SPEY 'no touch' hand dryer is easy and pleasant to use. The low noise level makes it ideal for installation in hospitals, nursing homes, schools, washrooms, kitchens and offices. Warm air drying is more economical to run than alternatives and avoids the inconvenience of waste paper or the need to replenish towels. When paper wipes are essential the SPEY hand dryer will complement the wash station.

The machine starts when the hands are placed beneath the warm air outlet and stops when the hands are withdrawn, making it more economical to run than predetermined cycles. The electronics distinguish static objects placed under the dryer and ensure that the machine cannot run continuously for more than 60 seconds.

# No Touch Hand Dryer

## Size

W270 mm H277 mm D147 mm

## Electrics

220/240V 50 Hz

2/2.2 kW 10A

## Specifications

Heating element	2.0kW
Element mounting	Outlet side of fan
Motor	2700 rpm, 130 watts brushless 2 pole induction. Motor windings protected against thermal overload

## Performance

Air per hour	200 cu m/hour
Temp. above Amb.	50 deg C 50mm from outlet
Power consumption	2.0 kW at 230V
Cycle time	Flexible. 30 secs drying time
Noise level	65 dBA at 1 m
Shock protection	Requires earthing of exposed metalwork. Earthed class 1

## Outside Cover

Brushed stainless steel  
Infra-red automatic sensing system with safety cut-out

## Weight

Packed 3.12kg  
Unpacked 2.79kg

## Mounting height

1200mm -1400mm from floor to base of unit

## Installation

Instructions and fitting templates supplied with each hand dryer

## Compliance

Harmonised European Directives: Low Voltage Directive 73/23/EEC, 93/68/EEC Directive 89/336/EEC, 92/3/EEC

We have a policy of continuous product improvement and changes may occur without notification
