

Combi Tower

STERI

Space saving tower rack which comes complete with its own RO Clinical Water Unit and positions for a steriliser and washer/disinfector.

Install Your Existing Equipment

Upgrade to one of our sterilisers and/or washer disinfector now or in the future

Sterilisers

- Vacuum and non-vacuum
- 12 and 22 litre chambers
- Less energy - sleep mode
- Stainless steel chamber
- Simple user friendly controls

Washer/Disinfector

- Simple one touch safety
- Low-cost and compact
- Safe and reliable
- Automated dosing

Validation Printer

Validation Printer for use with your existing or our new equipment.

Rear view

Fully equipped Tower

INTEGRAL RO Water Unit

- Save buying expensive bottled water
- Stop having to carry heavy bottles back to your clinic
- Eliminate expensive deliveries

All waste water is automatically pumped to a drain during the steriliser cycle, negating the need for stand-alone tanks. The unit also has a tap so that RO Water is available for other uses in the practice.
